Public Health and Safety** **Oklahoma Statutes Citationized** **Title 63. Public Health and Safety** **Chapter 49 - Safety Glazing Materials** **Section 2351 - Definitions**

Cite as: O.S. §, \_\_ \_\_

As used in this act:

1. "Safety glazing material" means any glazing material, such as tempered glass, laminated glass, wire glass or rigid plastic, which meets the test requirements of ANSI Standard Z-97.1-1966 and such further requirements as may be adopted by the State **Health Department** after notice and hearing as required by the Administrative Procedures Act, and which are so constructed, treated or combined with other materials as to minimize the likelihood of cutting and piercing injuries resulting from human contact with the glazing material.
2. "Hazardous locations" means those installations, glazed or to be glazed in commercial and public buildings, known as framed or unframed glass entrance doors; and those installations, glazed or to be glazed in residential buildings and other structures used as dwellings, commercial buildings, and public buildings, known as sliding glass doors, storm doors, shower doors, bathtub enclosures, and fixed glazed panels adjacent to entrance and exit doors which because of their location present a barrier in the normal path traveled by persons going into or out of these buildings, and because of their size and design may be mistaken as means of ingress or egress; and any other installation, glazed or to be glazed, wherein the use of other than safety glazing materials would constitute an unreasonable hazard as the **State Department of Health** may determine after notice and hearings as required by the Administrative Procedures Act; whether or not the glazing in such doors, panels, enclosures and other installations is transparent.

**Historical Data**

Laws 1971, HB 1350, c. 217, § 1, eff. January 1, 1972.

Title 63. Public Health and Safety

**Oklahoma Statutes Citationized** **Title 63. Public Health and Safety** **Chapter 49 - Safety Glazing Materials** **Section 2352 - Labeling**

Cite as: O.S. §, \_\_ \_\_

Each light of safety glazing material manufactured, distributed, imported or sold for use in hazardous locations or installed in such a location within the State of Oklahoma shall be permanently labeled by such means as etching, sandblasting or firing ceramic material on the safety glazing material. The label shall identify the labeler, whether manufacturer, fabricator or installer, and the nominal thickness and the type of safety glazing material and the fact that said material meets the test requirements of ANSI Standard Z-97.1-1966 and such other further requirements as may be adopted by the State **Health Department**. The label must be legible and visible after installation. Such safety glazing labeling shall not be used on other than safety glazing materials.

**Historical Data**

Laws 1971, HB 1350, c. 217, § 2, eff. January 1, 1972.
